RIDE DAY INFORMATION

Your sessions are graded based on your speed and experience, to maximise your time on track.

Starter Group (Red)

The Red Group is for riders that are new to ride days or new to a particular racetrack. The Red Group aims to offer confidence so that no-one feels intimidated or threatened, in such a new environment.

Intermediate Group (Green)

The Green Group is for the road rider with some ride day experience who is now familiar with how ride days work, and have some more pace on the track now.

Intermediate-Fast Group (Blue)

The Blue Group is for the experienced rider with pace on a ride day, who would prefer no overtaking rules. Faster than the green group, it offers the opportunity to overtake on the inside of corners, with caution and respect.

Advanced Group (Yellow)

The Yellow Group is for the very experienced rider with pace and consistency. It is the fastest group, offering speed and enjoyment whilst maintaining safety and respect. It is a ride day, not a race practice day.

We have an awesome crew ready to help you out, answer your questions and ensure you have a great day!
